### A Word from the Organizers

Dear students and research fellows:

We invite you to participate in the 2013 AGMUS Research Symposium. This symposium was initiated by UMET's Science Honor Program to give our students the opportunity to present their scientific research experiences. Since 2000, we have expanded the reach of our meeting to other institutions in the nation with minority participation in the Science, Technology, Engineering and Mathematics (STEM) areas. Now, in 2013, the symposium is implemented under the Student Research Development Center (SRDC), which is part of the Vice Presidency for Planning and Academic Affairs of the Ana G. Méndez University System (AGMUS). This opportunity will not only serve as a forum to learn about research experiences, but will also allow you to enjoy the wonders of our beautiful Borinquen scenery. For two days you will be able to learn about science and at the same time enjoy the beauty of our tropical Puerto Rico.

We have prepared an informative and comprehensive program for the Symposium. Abstracts in all STEM areas, as well as in Computer Science, are welcome. We look forward to seeing you in San Juan, Puerto Rico.
